Question Sheet

Player copy • Write your answers. The small Q references match the article.

01 Q8 Which kitchen nickname describes a cranberry bog's water reels? A. Egg-beaters B. Mashers C. Colanders D. Rolling pins

02 Q11 A batch makes 16 Parker House rolls. How many come from three batches? A. 36 rolls B. 40 rolls C. 48 rolls D. 64 rolls

03 Q12 One batch needs 360 grams of flour. How much would half a batch need? A. 180 grams B. 240 grams C. 320 grams D. 720 grams

04 Q14 If eight guests share 16 rolls equally, how many rolls does each get? A. 1 roll B. 2 rolls C. 3 rolls D. 4 rolls

05 Q15 Three cups of flour make one recipe. How much makes one and a half recipes? A. 3½ cups B. 6 cups C. 4½ cups D. 5 cups

06 Q18 US Thanksgiving in 2026 falls on November 26. How many November dates follow it? A. 4 dates B. 3 dates C. 5 dates D. 6 dates

Matching Answer Key

Host copy • Match each number to the player sheet before awarding points.

01 Q8

Egg-beaters

The action of stirring water dislodges fruit. That movement inspired a nickname borrowed from a familiar utensil.

02 Q11

48 rolls

Multiply sixteen by three. Batch size gives a predictable starting point even when the dinner guest list changes.

03 Q12

180 grams

Dividing the flour mass by two keeps the proportion the same. Ask students to write the unit alongside the number.

04 Q14

2 rolls

Sixteen divided by eight is two. Make the equal-sharing assumption explicit so extra hungry guests do not change the problem.

05 Q15

4½ cups

Combine the three cups in one batch with one and a half cups for the half batch.

06 Q18

4 dates

November has thirty days. The remaining dates are the twenty-seventh through the thirtieth, counted inclusively.

Quick Questions and Answers

Read a question aloud, pause for guesses, then share the printed answer.

01 Q3 **Which type of bean appears in the extension guide’s Three Sisters example? A. Pole bean B. Bush bean C. Cocoa bean D. Coffee bean**
