01 A conveyor.

Q1 Once the fruit is collected together, growers can lift it by conveyor or use a pump to load it for transport.

02 Spring and fall.

Q2 Keeping the channels clear lets growers manage both incoming and outgoing water, work that continues outside the actual picking days.

03 A mini-excavator.

Q3 The guide gives this as a mechanical alternative to hand work. Ditches must remain open for the bog to flood and drain.

04 Heavy dew.

Q5 The plants need to be dry before picking starts. A field can therefore be too wet for dry harvesting on a rainless morning.
